Evolution: The King's Journey

Elvis' lifelong evolution was self-evident to those who watched his music change over the years. The raw expressions of 50s gospel, country and rhythm & blues came alive when Elvis put his own stamp on it. Throughout the liberalizing Technicolor 60s and into the spectacular sequined 70s, the impact Elvis had on the world cannot be measured. We dedicate the 2011 LakeGeorge.com Elvis Festival, and our Saturday night show to this theme.

"Evolution" highlights three decades of Elvis' music, from his humble beginnings to becoming an international sensation. The concert stars the young, raw talent of Lance Dobinson; Dwight Icenhower performing songs from the '68 Comeback Special, and Bill Cherry, the 2009 Ultimate Elvis Tribute Artist Champion performing a selection of songs from the magical Las Vegas years. We are proud to present three of the most talented and dedicated Elvis Tribute Artists performing today, as they help you relive some of the best moments from throughout Elvis' musical evolution. Doors open at 7 PM.

Cost: \$45 - \$165

Location: Lake George Forum
